Settling a Question of Taxes CHADRON, Nob., June 25 .- (Special.) Missouri Valley Railroad Construction company owe the county of Dawes \$5,300 in back taxes? is a question this congressional district in West Point at which is under consideration by County Attorney Fanning and the Board of , County Commissioners. General Townsite Agent Whitney of the townsite company says that the railroad company owes no such au amount, but the treasurer's record shows an item of \$5,300 tax on construction material to have been delinquent since 1886, since it has never been canceled. In his explanation to the board Mr. Whitney stated that in 1886 the Elkhorn road, which has just extended its line into this county, was not assessed for taxation by the state for Dawes county, but the local assessor assessed the construction material then temporarily on hand in this county and which was soon afterward used in the extension of the railroad west and north of this city, for several thousands of dollars. Mr. Whitney further stated that in January, 1887, when be visited Chadron to pay the taxes for 1886 he found that the state auditor had failed to tax the ment made against the construction material by the local assessor was illegal. He | T.; E. W. Yernell and Mr. Henderson, S. assisted the commissioners in getting the railroad property correctly entered up with the state auditor and later paid the tax, with the understanding that the commission ers should order stricken from the tax list the assessment against the construction material. Nothing was left for the school board but to issue new bonds, which idea was adopted and bids called for. The old bonds had been drawing 6 per cent interest and the new bonds were to bear 5 per cent When the bids were opened, however, it was found that for \$24,000 of twenty-year bonds with an option of paying them at the end of five years a bonus of over \$800 was offered and one bidder who had not read the advertisement rightly offered \$2,500 bonus if the bonds were what is called "twenty-year straight." The school board then saw at a glance that the option of paying off in five years was costing it just \$1,700 and from the general outlook of things it can be safely concluded that the option cannot be taken advantage of. Hence all bids were rejected and the new ones called for on the basis of \$23,000 at 4 per straight bonds in denominations of \$1,000 within one year if in that time no legislaeach. READY FOR THE GREAT RACE

College Crews Prepared to Pull Their Shells Over Poughkeepsie Course This Week.

POUGHKEEPSIE N. V. June 25-All idications point to a lowering of the interollegiate world's record for four miles for ight-oared shells when the crews of Columbia, Cornell, Pennsylvania and Wisnever in the history of this now famous course have the crews seemed to be so evenly matched as are those here at present. It is fitting if, the record is to be broken that it should be here, for here under the shadow of the great Poughkeepsle bridge Cornell in 1895 established a new world's record of 19:29. The last few practices of the crews have shown more similarity in the crews and their stroke and the respective speeds than has ever been noticeable before, and the boats travel so well in practice that they wil undoubtedly he very close together during most of the four miles.

The Poughkeepsie 'Varsity course of four
miles runs along the west side of the river
in the shadow of the high hills and begins
at a point three miles above the Poughkeepsie bridge, finishing a mile below. It is
as straight as a tightly-grawn line could
be and the current of the river affects it
but little, if the race is not rowed at a
time when the up-tide makes a swirf in the
shallow water. The miles are marked with
big round white disks and the entire race is
visible from an observation train which
runs on the west side of the river. The
two-mile course for the four-cared and
freshmen eight is rowed from the two-mile
point of the course to the finish.

The four miles stretch of water which has
come to be known as the Poughkeepsie

men won, but only after nine fast, hard innings, the Armours putting up a game that fairly startled Buckerino's boys. The Armours made three runs in the first inning, but were unable to find the mighty Scully afterward. He pitched one of the best games ever seen in Omaha, but while Scully's game was a great one, Sullivan of the Armours was also a host within himself. He pitched masterly ball, and the Brewers were only able to get five hits off of his great delivery. It was a spiendid game, the best amateur game ever seen in this neck of woods. The bug crowd went wild and the numerous great plays were cheered to the echo. Manager Keith may well be proud of the team he has banded together for the summer campaign. It will take Western League ball to beat the Omaha Brewing Association aggregation. The four miles stretch of water which has come to be known as the Poughkeepsie course has been the scene of the most important college boat races that have been rowed within the last four years, or since 1895, when the course was first brought to public notice through its selection for the triangular race between cornell, Columbia and Pennsylvania universities.

The course holds the world's record for four miles, it having been established by Cornell in 1896, when the Ithacans traveled the four miles in 19:25.

Spent a Good Farm Doctoring. Mr. A. N. Noell of Asherville, Kan., says he spent a good farm doctoring himself for chronic diarrhoea, but got no relief, and was afraid that he must die. He chanced to get bold of a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and was much suprised at the relief which it gave him. He continued its use for a short time and was permanently cured. A great many cases of chronic diarrhoea have been cured by this remedy after all other medicines and treatment have failed.

DRINK GRAIN-O

after you have concluded that you ought not to drink coffee. It is not a medicine but doctors order it, because it is healthful, invigorating and appetizing. It is made from pure grains and has that rich seal brown color and tastes like the finest grades of coffee and costs about & as much. Children like it and thrive on it because it is a genuine food drink containing nothing but nourishment. Ask your grocer for Grain-O, the new food drink. Ise and 26c.
